PROJECT INFORMATION SHEET

Road: Emerson Road

Project Type: Road Improvement

Location: Between U.S. 30 and Lincoln Highway/W. 4th St. (Sterling)

Description: Work will include recycling the existing pavement followed by the construction of a new asphalt overlay. Asphalt will extend to the ROW of existing driveways and side roads. Work will also include some culvert replacements and minor improvements throughout the length of the project.

Letting Date: March, 2018

Contractor: Civil Constructors

Schedule: Work to be completed between May and August, 2018.

Traffic impact: Full road closures may be required during culvert replacement. Traffic will remain open to one lane during recycling and asphalt construction activities; however, there will be travel delays. Detours will not be signed but the public is encouraged to take alternate routes whenever possible to reduce traffic through the project.
