

Following recent direction from the Illinois Department of Public Health (IDPH), the Whiteside County Health Department (WCHD) will no longer be offering rapid antigen testing to the community. The State is asking Local Health Departments to prioritize and preserve current testing resources for schools while they explore options to provide resources/ assistance to school and community testing.

At this time, WCHD will continue working directly with schools on testing and will work to provide updates should relevant information become available.

Until then, please direct community members in need of testing to the following resources.

- Illinois State Testing Sites (<http://dph.illinois.gov/testing>)
- Illinois Mobile Testing Sites (<http://dph.illinois.gov/testing/mobile-testing-sites>)
- Find other locations at <http://dph.illinois.gov/testing>
- SHIELD IL Testing (Saliva Testing)
 - Sauk Valley Community College - See site for details (<https://www.svcc.edu/covid19/testing.html>)
 - Sterling High School - See site for details (<https://www.sterlingpublicschools.org/page/shield-covid-19-testing>)
